

SUCCESS

To lay your head down each night with the knowledge that you have conducted yourself to the fullest in all your endeavors that day and knowing that you did the most you possibly could have.

Start each day with the first step. It proceeds all else.

MAKE IT HAPPEN!

Achieve balance in all things in life.

Surrender and lose your honor,

fight and if you do lose you do so with dignity.

Life controls you or you control life, take control of your destiny.

Things to do for yourself today:

1. Take care of your mental health.
2. Take care of your physical health.
3. Take care of your spiritual health.
4. Thank God.
5. Remember your ancestors fondly including those still here.
6. Recognize and applaud your own successes silently.
7. Laugh at your own failures loudly.
8. Take things seriously.
9. Don't take yourself seriously.
10. Do it now!

Once committed to do so,

Keep On Charging the Enemy as Long as There Is Life.
