Coalition of Fathers and Families NY, Inc. Operational Directive #1

Non Discrimination Policy:

The Coalition of Fathers and Families NY, Inc. was formed as a result of discrimination against a class of people, that being fathers, who have been denied one of the most basic civil rights, the ability to raise our children without undue outside interference, based upon our individual heritage. We recognize that parental discrimination is often applied to a second class of persons, mothers. We abhor parental discrimination and come together as an Association to pursue equal civil rights for all family members.

It shall be the policy of the Coalition of Fathers and Families NY, Inc. in membership, provision of services, employment and the awarding of contracts not to discriminate on the basis of sex (gender), marital status, race, color, creed, national origin, age, disability, carrier status, genetic predisposition or sexual orientation.

The Coalition of Fathers and Families NY, Inc. reserves the right to restrict membership, services, employment and contracts based on the content of a persons heart as determined on behalf of the membership by the Board of Directors.
