“Working to Keep Fathers and Families Together”

Purpose of the Association

The Coalition of Fathers and Families NY, Inc. is a non profit educational and advocacy corporation working to keep fathers and families together by providing services to the community through research on the health aspects of families. We provide educational information and peer support and counseling with respect to healthy families and protect families in need. We advocate for the defense of human and civil rights secured by law on behalf of disadvantaged persons and families. The foregoing services are provided to enhance families in our communities and lessen the burdens of government.
